

MULTI-PURPOSE SILICONE BAKING MAT

- Replaces parchment paper & greasy sprays when baking
- Withstands temperatures from -40°F to 480°F (249°C)
- Works with electric or gas ovens
- Uniform heat distribution ensures items bake and brown evenly
- Great for rolling or kneading dough, fondants, making candies or chocolates
- Dissipates heat rapidly to prevent burning
- Also great for placing items on to freeze
- Measurement guide
- *Also great for arts & crafts, gluing, painting, modeling clay and more!*
